

| DESCRIPTION   |              |                  |  |
|---|--------------|------------------|--|
| General description   |              |                  | ergonomics satin silver anodised handrail  |
| Section (height x width)                                    |              | mm               | 42 x 40  |
| Weight  |              | kg/lm            | 0.74   |
| Length  |              | lm               | 4  |
| Stand off from wall   |              | mm               | 40 / 50  |
| Overall projection  |              | mm               | 80 / 90  |
| Thickness of the PVC seath                                  |              | mm               | 2  |
| Surface   |              |                  | covered with a film in order to protect the profile until the end of the project |
| CLASSIFICATION  |              |                  |  |
| Fire reaction   | EN 13 501-1  | class            | B-s2,d0  |
|   | NFP 92 – 507 | class            | M1   |
| PERFORMANCE   |              |                  |  |
| Impact resistance   |              | joules           | 70   |
| Chemicals resistance  |              |                  | Anios compliant  |
| anti-bacterial activity<br>(E. coli – S. aureus – MRSA) (1) | JIS Z 2801   | -                | > 99%<br>inhibits growth   |
| TVOC emission   | EN 16000-6   | after 28<br>days | < 100 µg/m3  |

(1) The implementation of an effective cleaning method is the best defence against infection.
